Register for the Roundtable Dialogue on ASEM Higher Education Mapping: Working Towards The SDGs

**How do policymakers approach sustainable development in higher education?
What do higher education institutions practice?**

Learn insights from 20+ countries and 250+ institutions in Asia and Europe.

The ASEF Regional Conference on Higher Education (ARC) is the **Official Dialogue Partner of the ASEM Education Ministers Meeting (ASEMME)** and the **only bi-regional multi-stakeholder dialogue platform** for university and student leaders, policymakers and ministers to discuss higher education issues and shape the education landscape in Asia and Europe.

In 2022, the first year of this biennial project, two studies were conducted in line with the topic of the 9th ASEF Regional Conference on Higher Education (ARC9) – **ASEM Higher Education Mapping: Towards Sustainable Development**. The ARC9 Roundtable Dialogue will elaborate further on the two studies that gathered evidence and mapped higher education policies and practices that work toward the SDGs in Asia-Europe Meeting (ASEM) partner countries:

ASEM Higher Education Policies: Working Towards the SDGs

This study maps the higher education policies advancing sustainable development in ASEM partner countries. Ministries responsible for Higher Education were engaged to support the effort in mapping existing policies that contribute to the SDGs through an ASEM-wide survey and a series of Focus Group Discussions.

ASEM Higher Education Practices: Working Towards the SDGs

The study was conducted in partnership with the International Association of Universities (IAU). Data from the third iteration of IAU Global Survey on Higher Education and Research for Sustainable Development (HESD) specific for ASEM partner countries were analysed to investigate the scope, depth, and breadth of engagement by ASEM higher education institutions with the Sustainable Development Goals (SDGs).
